Andrea,

I am reviewing the Form 2A location assessment (Doc #400350807) for the Wells Ranch USX AE 31-09P Tank location. Please clarify the following:

1. The size of disturbed area during construction and interim reclamation is listed as 73.00 acres. Please provide a corrected size.
2. The comments state that the Reference Area is west of the location, yet the Reference Area Picture is facing south. Please clarify the Reference Area location.

Contact me with any questions regarding this Form 2A.

Best Regards,
