Julie,

I will add this to the BMP section of the Form 2A.

Hi Rick,

Would you please add the following statement to the comments for this permit; this is for the sound control.

“The sound wall will be located on the west side of the compressor.”

Please let me know if you have any questions.

Thank you,

Julie

Liz,

I am reviewing the Form 2A location assessment for the Dillard 20M-HZ Pad. Can you give me some additional information regarding:

1. Why the location is in the north part of the section and not the south side like the 20Y-HZ Pad?
2. Whether any mitigation is planned for sound control for the permanent production equipment on the location.

Thank you,

Rick Allison, P.G.
