Rick,

I am ok with all listed below and acknowledge the COA.

The production facility location for this well is located on the New Cache FH NWSE-NWSE Tank Battery 8-12D (it's a combination tank battery for two different well locations) doc # 400364999.

Thanks,

Shannon

Subject: New Cache FH NWSE Pad8-14D Form 2A 400364991

Shannon,

I am reviewing the Form 2A location assessment for the New Cache FH NWSE Pad 8-14D. Please address the following comments:

1. I changed the depth to water to 9 feet (static water level in water well 19956-F identified on Form 2A)
2. I changed the Sensitive Area Designation to Yes due to shallow ground water and the proximity of the location to the recreation lake
3. Please provide information from regarding the location of the production facility for this well pad.

Contact me with any questions regarding this Form 2A.

Rick Allison, P.G.
