Re: Reporting Inconsistencies

Grommett #2
NWNE 13 33N 13W
05-067-08988

A review of the Colorado Oil and Gas Conservation Commission (COGCC) records for the subject well reveals that there are inconsistencies between the Drilling Completion Report dated April 19, 2007 and the Application for Permit to Deepen the existing well dated October 2, 2012 with regards to the casings size and depths. Please provide a written explanation for these differences and ensure that the accurate information is provided to the Colorado Oil and Gas Conservation Commission.

Mark Weems, P. E.
