Subject: Incident Tracking # 2232039

To: "Fischer, Alex" <Alex.Fischer@state.co.us>

Alex: Attached is a modified map that labels the sample locations the same as the analysis. The spill resulted as both tanks were being filled so water samples were taken from both. Ice conditions prevented the operator from vacuuming any fluids up. We anticipate sampling and removal of soil from the ROW in the spring. I will call you to discuss. Lee
