13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

The Federal 299-23-3 well is on the idle wells list. Based on results from the nearby Federal 299-27-5 and 299-27-6, WPX Energy believes this well is a good candidate for conversion to WPX Energy is continuously evaluating this well for conversion potential.

Upon conclusion of the evaluation process, a full UIC permit will be sent to the COGCC for approval as a Salt Water Disposal Well. At this time, an additional Sundry Notice will be submitted to the BLM with recompletion and conversion procedures for review and approval and A Sundry Notice will also be sent to the Natural Resource Specialist for review under the NEPA process.

Please review the attached current wellbore diagram for reference. Logs are available upon request due to attachment size.
