

Exhibit "A"

2A Comments

- Production facility to be located approx. 976' S of proposed pad.
- Facility will include the following wells: New – Bost PC J07-76-1HN, Bost J07-77-1HN, 78-1HN, 79-1HN; Existing – UPRC 7-4H6, UPRC 7-5H6, Ariel J7-11 Ariel J7-12 and Ariel J7-14
- Existing facility for the UPRC 7-4H6, UPRC 7-5H6, Ariel J7-11 Ariel J7-12 and Ariel J7-14, is located SW of new facility and is outside of the disturbed area. Existing facility will be re-located and included in the new area of disturbance.
- Sound barrier will be utilized
- Chain link fence will be installed to control access to site.
- The disturbed area is located on both dry land wheat and irrigated corn.
- Nearest Surface Water at 186' W (Irrigation Ditch) will not be affected by operations.
- Nearest Water Well: Well Constructed, Receipt: 9059372, Permit #: 5420- -, Use: Domestic, Depth: 182', SWL: 28'
- **Equipment**
- **New:** Sand Catcher: 4, HP Separator: 4, LP Separator: 4, Gas Lift Compressor: 1, Wellhead Compressor: 1, VRU Compressor: 2, Compressor Suction Scrubber: 1, Oil Tanks: 12, Water Tanks: 4, Water Pits: 4, Blowcase: 1, Knockout Tank: 1, VOC: 3, 3-Phase Flowlines: 4, DCP Meter Building: 1, Gas Lift Line: 1
- **Existing:** Oil Tanks: 2, Water Pits: 1, Separators: 2, EFM's: 2, VOC: 1, 3-Phase Flowlines: 4
- **Total:** Sand Catcher: 4, HP Separator: 4, LP Separator: 4, Gas Lift Compressor: 1, Separators: 2, Wellhead Compressor: 1, VRU Compressor: 2, Compressor Suction Scrubber: 1, Oil Tanks: 14, Water Tanks: 4, Water Pits: 5, Blowcase: 1, Knockout Tank: 1, VOC: 4, 3-Phase Flowlines: 8, EFM's: 2, DCP Meter Building: 1, Gas Lift Line: 1
