RE: Exception Location Request to Rules 318A(I).a.(1) and 318A(I).c.(2)  
Devore 1G-34H  
NENE of Section 34, T3N, R66W  
Weld County

Dear Director Lepore:

Please let this letter serve as our request for administrative approval of the exception locations requested for the captioned oil and gas well.

Encana Oil & Gas (USA) Inc. ("Encana") proposes to drill the subject well at a surface location outside a legal GWA window as defined by Rule 318A(I).a.(1) and at a surface location greater than fifty (50) feet from an existing well as defined by rule 318A(1).c.(2). Consent to the exception locations signed by the surface owner on which the well is proposed to be located are enclosed in order to approve the well location administratively.

If you have any questions or need additional information, please contact me at (720) 876-5339.

Sincerely,  
**Encana Oil & Gas (USA) Inc.**

Dear Mr. Barclay:

Encana Oil & Gas (USA) Inc. ("EnCana") staked the above mentioned wells at surface locations as indicated above from the north and east lines of Section 34, Township 3 North, Range 66 West (see attached Well Location Certificates). These wells are being drilled under the rules and regulations of the Colorado Oil and Gas Conservation Commission's ("COGCC") Rule 318A known as the Greater Wattenberg Area Special Well Location, Spacing and Unit Designation Rule. This rule states that all boundary infill wells be drilled from the same surface locations as previously designated in Rule 318A.a.(1) which reads:

"In the Greater Wattenberg Area ("GWA"), operators may utilize the following described surface drilling locations (GWA windows") to drill, twin, deepen, or recomplete a well (GWA well") and to commingle any or all of the Cretaceous Age formations.

(1) A square with sides four hundred (400) feet in length, the center of which is the center of any governmental quarter-quarter section ("400' window"); ...

These wells were staked at locations between 488' and 514' outside of the defined 400' windows. As these locations were staked with your consent and approval, Encana respectfully requests your consent to an exception location for the above mentioned wells by waiver of the COGCC Rule 318A.a.(1).

Dear Mr. Barclay:

Encana Oil & Gas (USA) Inc. ("Encana") staked the above mentioned wells at surface locations as indicated above from the north and east lines of Section 34, Township 3 North, Range 66 West (see attached Well Location Certificates). These wells are being drilled under the rules and regulations of the Colorado Oil and Gas Conservation Commission's ("COGCC") Rule 318A known as the Greater Wattenberg Area Special Well Location, Spacing and Unit Designation Rule. This rule states that all boundary infill wells be drilled from the same surface locations as previously designated in Rule 318A.c.(2) which reads:

"When the operator is requesting a surface well location greater than fifty (50) feet from a well (unless safety or mechanical considerations of the well to be twinned or topographical or surface constraints justify a location greater than fifty (50) feet), the operator shall provide a consent to the exception signed by the surface owner on which the well is proposed to be located in order for the Director to approve the well location administratively."

These wells were staked at locations between 740' and 808' northwest of the existing Devore 6-0-34 well. As these locations were staked with your consent and approval, Encana respectfully requests your consent to an exception location for the above mentioned wells by waiver of the COGCC Rule 318A.c.(2).
