Franson 1-24 Pit Closure - NWSE S24, T4N, R47W - API #05-125-06389 - Location ID #303129 - Pit ID #400307511

COGCC approved your special use pit permit (#400307511) on January 23, 2013. Based on review of information presented on November 13, 2012, it appears that no further action is necessary at this time, and COGCC approves the associated pit closure request. However, should future conditions at the site indicate contaminant concentrations in soils exceeding COGCC standards or if ground water is found to be significantly impacted, then further investigation and/or remediation activities may be required at the site. The remediation project assigned to the Form 27 (#7520) has been changed to closed status in the Colorado Oil & Gas Information System. A copy of the approved Form 27 is Please maintain a copy of this email as verification of closure.

Thank you,

Annie Clements Eckman, PG *for*
