

SURFACE DAMAGE AND RELEASE AGREEMENT

This Surface Damage and Release Agreement ("**Agreement**") is made and entered into this 27th day of July 2012, by and between Irene Hornung ("**Owner**"), and NG Resources, LLC, ("**Operator**"); sometimes referred to each as a "**Party**," or collectively as the "**Parties**."

WITNESSETH:

For and in consideration of the covenants and agreements contained herein, and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties agree as follows:

1. **OWNERSHIP.** Owners are the surface Owners of certain lands located in Weld County, Colorado as more specifically described as follows ("**Lands**"):

Township 4 North, Range 68 West, 6th P.M.
Section 28: N/2NW/4

Operator (and/or its affiliates) owns a working interest in valid leases taken in its name covering all or portions of the Lands or lands pooled or included in a spacing unit therewith (each a "**Lease**," collectively, the "**Leases**"). Additionally, Operator may have responsibilities under a Joint Operating Agreement ("JOA") with respect to the Lands.

2. **OPERATOR'S OIL AND GAS OPERATIONS ON THE LANDS.**

Operator intends to drill or cause to be drilled oil and/or gas wells on the Lands, as depicted approximately on Exhibit "A" attached hereto ("**Wells**"). In order for Operator to drill, construct, complete, produce, maintain, and operate the Wells and all facilities associated therewith, including, but not limited to, access roads ("**Access Roads**"), pipelines, flow lines, separators, tank batteries, electric lines and any other facilities or property necessary for Operator to conduct operations on the Wells (each a "**Facility**," collectively, the "**Facilities**"), it is necessary that Operator enter and utilize a portion of the surface of the Lands.

The Parties enter into this Agreement to evidence their entire agreement regarding the payment of surface damages, entry, surface use, and any other matters relating to Operator's use of the Lands.

3. **LOCATION.** The approximate location of the Wells, the Access Roads and Flowlines to the Well sites and certain other Facilities to be constructed on the Lands are depicted on Exhibit "A." Any material changes to the Well, Access Roads and Facilities locations may be made by Operator with the consent of Owners, which will not be unreasonably withheld, but will not unduly interfere with Owners's existing use of

the surface estate. Operator agrees not to use any more of the surface of the Lands than is reasonably necessary to conduct its operations.

4. **CONDUCT OF OPERATIONS.** Operator's operations on the Lands will be conducted pursuant to the terms of the Leases, this Agreement, the rules and regulations of the Colorado Oil & Gas Conservation Commission ("**COGCC**"), and applicable Colorado statutes and case law.

5. **COMPENSATION AMOUNT.** Operator will pay the affected Owner the sum XXXXXXXXXXXXXXXXXXXX for each wellhead on a well by well basis prior to the commencement of drilling operations for each such Well. The Amount shall be deemed full and agreed consideration for all damages caused or created by reason of the reasonable and customary ingress, egress, rights-of-way, drilling, completion, production and maintenance operations associated with the Wells and Facilities. Such damages will include, without limitation, damage to growing crops and crop land; the removal, transportation and care of any livestock; the re-seeding, construction and use of access roads; and the preparation and use of the wellsite areas. For all subsequent major operations for said Wells including but not limited to refrac, deepening, redrilling, etc. Operator shall pay Owners actual damages caused by said subsequent operations.

6. **ADDITIONAL SURFACE USE PROVISIONS, ACCESS ROADS, FENCES AND FACILITIES.** With respect to its operations on the Lands, Operator will comply with the following provisions:

A. Access Roads:

- (i) Permanent Access Roads will not exceed 20 feet in width.
- (ii) Operator will insure that all vehicles accessing the Lands on its behalf remain on the Access Roads.
- (iii) Operator agrees to back-slope all Access Roads.
- (iv) Operator will provide Owners with a minimum of 10 days prior written notice before restoring the surface of all Access Roads to be permanently abandoned by Operator. No later than 10 days following receipt of such notice, Owners may elect, in writing, not to have such Access Roads abandoned by Operator. In such event, Operator will have no liability under this Agreement, the Lease, or otherwise, to restore the surface of the Lands utilized as Access Roads. Failure to timely respond will be deemed as Owners election that Operator proceed with the abandonment of the Access Roads and the restoration of the surface thereof.
- (v) Operator will maintain all Access Roads in good repair and condition.

B. Surface Restoration:

Upon permanent cessation of Operator's operations on the Lands, all areas thereof occupied or utilized by Operator will be restored by Operator to their original contour as nearly as is reasonably practicable, and re-seeded if so requested by Owners; provided however, that Operator's intent to abandon any Access Roads will be subject to the provisions of Paragraph 6(A)(iv) herein.

C. Flowlines:

(i) Owner agrees to grant and/or execute formal right of way documents to Operator (or third party gas gatherers) as may be necessary to facilitate development of the Wells in the general locations of the "Flowlines" as depicted on Exhibit "A". Said right of way documents shall be recorded in Weld County, Colorado and shall be non-exclusive.

D. Other:

(i) Operator will install culverts on the Lands that may be necessary to maintain present drainage and irrigation otherwise affected by its operations on the Lands.

(ii) If by reason of the activities of the Operator, including, but not limited to, drilling, completing, equipping, and operating of the Wells, there is damage to personal property of the Owners, including, but not limited to, irrigation wells, fences, culverts, bridges, pipelines, ditches, or irrigation systems, and for which Owners has not been previously compensated pursuant to Paragraph 5, Operator will repair or replace such items after consultation with and to the reasonable satisfaction of the Owners. Owners will notify Operator of any items damaged after the Wells construction and Operator will repair or replace such items after consultation with the Owners within 15 days of occurrence.

(iii) Operator agrees that all trash, refuse pipe, equipment, liquids, chemicals, or other materials brought on the Lands that are not necessary for continued operations of the Wells will be removed and disposed away from the Lands no later than 30 days after the completion of the Wells. No such items will be burned or buried on the Lands.

(iv) Operator is required to remove casing to a depth of 6 feet below surface within 90 days following cessation of operations.

(v) During drilling operations the well sites and any pits shall be fenced if so requested by Owner. Additionally, the well sites shall be kept

free and clear of all noxious weeds, unsightly growth and trash either during drilling operations or after completion and production.

(vi) All fresh water pits shall be lined with plastic. Such liner shall be used to prevent seepage to adjacent lands. Lessee shall remove the plastic after completion of operations as soon as is reasonably practicable.

(vii) All guy line anchors for drilling and completion rigs shall be immediately removed after such work is completed.

7. **DEFAULT AND RIGHT TO CURE.** In the event of alleged default by Operator in the payment of any of the sums hereinabove provided to be made, in obligations to be performed, or any other terms, conditions or covenants of this Agreement, Owners will notify Operator, by certified mail, return receipt requested, of the alleged default. Operator will have 30 days from receipt of the written notification in which to dispute or otherwise respond to the notification before Owners may allege default. Receipt of the certified mail shall be deemed effective 3 days after the mailing unless sooner received by Operator.

Except as otherwise agreed in writing, no waiver by Owners of any breach by the Operator of any of its obligations, agreements, or covenants hereunder will be deemed to be a waiver of any subsequent or continuing breach of the same, nor will any forbearance by Owners to seek a remedy for any breach by the Operator be deemed to be a waiver by Owners of its rights or remedies with respect to such breach; however in no event will Operator be liable for consequential damages.

8. **INDEMNITY/RELEASE.** Owners hereby releases and agrees to hold harmless Operator from any and all liability and further payment, other than what has been provided herein, for damages on the Lands which arise from, out of or in connection with the Operator's operations on the Lands, but only as to those operations which are described in and permitted by this Agreement, and for those operations which the Amount has been paid and received by Owners pursuant to this Agreement.

Operator agrees to indemnify and hold Owners harmless from any and all claims, damages and causes of action arising out of and caused by Operator's operations on the Lands that may be asserted by any of Operator's agents, employees, subcontractors, contractors or persons entering upon the premises at the request of Operator.

9. **WAIVER OF 30-DAY NOTICE.** Owner hereby waives the minimum 30-day written notice requirement for operations to begin and any other notice or consultation requirements of the COGCC. Without waiving the foregoing, Operator agrees it will provide an initial notice to Owners after it has submitted a request for permit to drill from the COGCC.

10. **NOTICE FOR ADDITIONAL OPERATIONS.** Operator will comply with COGCC rules and regulations requiring that advance notice be provided to Owners for subsequent operations on the Wells, including, but not limited to, reworking operations thereto.
