Re: **Letter to the Director, Rule 318A.m.**
LaSalle 25G-212
SWNW, Section 25, T5N, R65W
Weld County, Colorado

Dear Director:

Per rule 318A.m., Petroleum Development Corporation doing business as PDC Energy ("PDC") is requesting a GWA Minimum Intrawell Distance waiver for the above-captioned well. The proposed well will be less than 150' to Hamilton 12-25 (API # 123-14553, SWNW), and Hamilton 22-25 (API # 123-14747, SENW) which are located in Section 25 T5N R65W and operated by PDC. Since the encroached wells are operated by the same operator as the proposed well, no other waivers are needed.

Proposed Anti-Collision Mitigation BMP:

Prior to drilling operations, Operator will perform an anti-collision scan of existing offset wells that have the potential of being within close proximity of the proposed well. This anti-collision scan will include definitive MWD or gyro surveys of the offset wells with included error of uncertainty per survey instrument, and compared against the proposed wellpath with its respective error of uncertainty. If current surveys do not exist for the offset wells, Operator may have gyro surveys conducted to verify bottomhole location. The proposed well will only be drilled if the anti-collision scan results indicate that there is not a risk for collision, or harm to people or the environment. For the proposed well, upon conclusion of drilling operations, an as-constructed gyro survey will be submitted to COGCC with the Form 5.

Due to the reasons above, PDC respectfully requests that you approve this request.

If you have any questions, please contact the undersigned at 303-860-5800.

Sincerely,

A handwritten signature in blue ink that reads "Julie Webb".
