**Calvary Donaldson USX EE29-3, 4, 5, 6, 12, 19 API#05-123-33669; Facility ID 423676; SWNW Sec.29, T7N, R65W, Remediation #7451**

Based on review of information Noble Energy presented on December 31, 2012, it appears that no further action is necessary at this time, and COGCC approves the closure request. However, should future conditions at the site indicate contaminant concentrations in soils exceeding COGCC standards or if ground water is found to be significantly impacted, then further investigation and/or remediation activities may be required at the site. The spill number (2231293) and remediation number (7149) have been changed to closed status in the Colorado Oil & Gas Information System via Form 27a document #200380790. A copy of the signature page of the approved Form 27 is attached. Please retain a copy of this email as confirmation of closure.

Thank you,

**Ann Clements Eckman, PG**
