Justin,

I have completed my review of the above referenced Form 2A and I have a few comments.

1) In the Water Resources section, you have listed a distance to the nearest water well as 2,311 feet. In the Comments section you indicate that this water well is an abandoned monitoring well.

Because that water well has been abandoned and the water well used for the depth to groundwater (Permit #250629) appears to be the closest existing water well (approximately 8,150 feet southeast of the oil and gas location), I would like to change the distance to the nearest water well from 2,311 feet to 8,150 feet on the Form 2A.

2) In the Comments section, I would like to remove the statement about the abandoned monitoring well being the nearest water well to the oil and gas location.

Please feel free to call me if you have any questions. Respectfully.
