Amber.

Attached is information, submitted by sundry, in response to spill/release tracking no. 2221810. Not sure what happened, but the sundry, originally signed by the operator in 2012, and apparently never received/processed, was resubmitted. I've approved the sundry as evidenced by my digital signature. Please enter the sundry and index both it and the associated document to the subject tracking number. Also, please enter a form 19A at this time to close the original Form 19.

Let me know if you have any questions.

Thanks,

Chris
