Re: COGCC Remediation No. 4514
Stroup 1-28
SWSE Sec. 28-2N-46W
Yuma County, Colorado

Dear Ms. Davis,

Colorado Oil and Gas Conservation Commission (COGCC) staff has reviewed the remediation documentation submitted in 2008 and 2009 for the referenced site.

Based on review of this information, COGCC concurs that remediation of soil impacted by the release of produced water has been completed. However, surface reclamation must meet the COGCC 1004 series rules for vegetative cover. Please request an inspection when you determine that vegetation is consistent with those requirements.

If you require any additional information, please call me at 303-637-7178.

Sincerely,

Nancy K. Prince for
John E. Axelson, P.G.
Environmental Protection Specialist
