Dan,

Based on my review of the above referenced form 4 it appears that to be compliant with rule 609 you will need to request a total of four exceptions. The four exception would be for the well you could not access and the three additional samples that you cannot collect since there is not any available wells. At this time the Form 4 has been put on hold.

I can make the necessary changes to the form 4. If you would like me to make the changes please respond to this email. Once the changes are made I can pass the form.

Thanks,

Arthur

Thank you for the response, sorry this is a little bit of a learning curve for me but yes in this case I would need four exemptions.

Would you rather that I make the changes to the form?

Dan,

I can take care of it. Once the form is submitted really the only way to make changes is by COGCC staff.

Thanks,

Arthur
