## BMP

<u>Type</u>	<u>Comment</u>
Material Handling and Spill Prevention	Spill Prevention Control and Countermeasure Plans (SPCC) are in place to address material releases and to prescribe materials handling BMP's for the facility. "Good Housekeeping" measures will be taken to ensure proper waste disposal.
Storm Water/Erosion Control	<p>Storm Water management plans (SWMP) are in place to comply with both Colorado Department of Public Health and Environment (CDPHE) and Colorado Oil and Gas Conservation Commission (COGCC) storm water discharge permits. The construction layout for this location details Best Management Practices (BMP's) to be installed during the initial construction. Note that BMP's may be removed, altered, or replaced with the changing conditions in the field and the SWMP will be updated accordingly. The BMP's prescribed for the initial construction phase include, but are not limited to:</p> <ul style="list-style-type: none"><li>• Construct diversion ditch</li><li>• Sediment Reservoirs</li><li>• Check dams</li><li>• Level spreaders</li><li>• Stabilized construction entrance</li><li>• Slash</li><li>• Sediment Traps</li><li>• Wattles</li><li>• Terrace</li><li>• Secondary containment berms</li><li>• Detention ponds</li></ul>
Wildlife	<p>1) This location is mapped as an elk winter concentration area. Given that elk seldom use the surrounding habitat, CPW recommends no elk stipulations.</p> <p>2) This locaiton is within 4 miles of a greater sage-grouse lek. Given the surrounding habitat, CPW recommends no greater sage-grouse stipulations.</p> <p>3) Muffle sound from compressors, pump jacks or other motors necessary to run operations at the site. If mufflers are used, point upward to dissipate sound and vibration.</p> <p>4) Install and utilize bear-proof dumpsters and trash reseptacles for all food-related trash on location following COGCC Rule 1204a-1.</p>
