Re: Centralized E&P Waste Management Facility Annual Report
Facility ID #426582
Encana Oil and Gas (USA) Inc. NPR Solidification Facility

Dear Mr. Fisher:

Rule Engineering, LLC is submitting the 2012 Annual Report for the above referenced facility on behalf of Encana Oil and Gas (USA), Inc. (Encana) for the North Parachute Ranch (NPR) Solidification Facility (NSF). The Form 28 was approved by the Colorado Oil and Gas Conservation Commission (COGCC) in a letter dated July 11, 2012. The APEN with the CDPHE was approved on October 11, 2012 and after construction of the facility per the Form 28, operations began on November 6, 2012.

This report covers the period from the time operations began through the end of 2012. Attached are summaries of the waste origin volumes (Table 1) and waste manifested for off-site disposal (Table 2). The waste processed at this facility in 2012 were estimated to include Frac Tank Bottoms of 129.5 cubic yards of solids and 1,564 barrels of liquid, and Produced Water Tank Bottoms of 25.5 cubic yards of solids and 65 barrels of liquid. No Pit Bottoms were processed in 2012. After solidification with sawdust an estimated total of 1,080 cubic yards were transported for disposal at the RNI-Bluebell facility in Utah.

If you have any questions please contact me at 303-431-8500 or Brett Middleton of Encana at 970-285-2739.

Sincerely,
Rule Engineering, LLC

Russell V. Knight
