5. DESCRIBE PROPOSED OR COMPLETED OPERATIONS

OXY USA WTP LP (Oxy) is providing this sundry notice as the annual report of produced water transfer operations conducted between Oxy and WPX Energy (WPX). The Oxy and WPX water transfer agreement was approved by the COGCC on May 24, 2012, reference document number 2224710. An annual report is required under the conditions of approval. This plan allows the transfer of produced water from WPX's TR 41-35-597 / #2 Multi-well Pit (Facility ID 422272) or Starkey Gulch Special Purpose Pit (Facility ID 422267) to Oxy's Pond G produced water storage pond via water pipeline.

WPX transferred approximately 32,256 bbls of produced water to Oxy's Pond G, Pond 13 East, and Pond 13 West locations between May 24, 2012 and June 30, 2012 via pipeline.

An annual review was completed on Oxy's Receiving Operator Beneficial Water Reuse Plan of produced fluid transfer from WPX approved on May 24, 2012:

- No spills or incidents occurred during this transfer period
- No changes are needed to the approved plan
- Tabulated water sample data of the produced water transfer fluids is attached.

Should future transfer operations be anticipated through 2013, Oxy will prepare and submit a Form 4 for each location before May 24, 2013, the one-year anniversary date of first water transfer, as required in the conditions of approval. If no additional transfer requests are submitted by May 24, 2013, then Oxy will submit closure documentation to the COGCC as final closure of the water transfer agreement between Oxy and WPX.
