Dear Sir/ Madame:

Encana Oil & Gas (USA) Inc. ("Encana") staked the Kugel wells at the surface locations listed above (footages are further detailed on the attached Well Location Certificates). These wells are being drilled under the rules and regulations of the Colorado Oil and Gas Conservation Commission's ("COGCC") Rule 318A(I) known as the Greater Wattenberg Area Special Well Location, Spacing and Unit Designation Rule (Except the City and County of Broomfield). This rule states that all boundary infill wells be drilled from the same surface locations as previously designated in Rule 318A(I).a.(1)(2) which reads:

"The Greater Wattenberg Area ("GWA") is defined to include those lands from and including Townships 2 South to 7 North and Ranges 61 West to 69 West, 6th P.M. In the GWA, operators may utilize the following described surface drilling locations (GWA windows") to drill, twin, deepen, or recomplete a well (GWA well") and to commingle any or all of the Cretaceous Age formations from the base of the Dakota Formation to the surface:

A square with sides four hundred (400) feet in length, the center of which is the center of any governmental quarter-quarter section ("400' window");

The wells were staked at locations 7' (seven feet) south of the defined (400') window. As these locations were staked with your consent and approval, Encana respectfully requests your consent to an exception location for the wells by waiver of the COGCC Rule 318A(1).a.(1)(2).

If this meets with your approval, please sign and date both originals of this letter, keeping one for your files and returning one to the undersigned.

Thank you for your time and consideration in this matter. If you have any questions or comments, please call the undersigned at 720-876-3575.

Very truly yours,

**Encana Oil & Gas (USA) Inc.**
