COMMENTS:

In 2008 XTO Energy requested and was granted a variance from COGCC rule 326b due to the non-standard construction of the Golden Eagle Mine F3. Due to an inability to produce this well and the non-standard construction that prevents the ability to perform a MIT, XTO requests to have the status of this well changed from shut-in to temporarily abandoned. XTO wishes to substitute the standard temporarily abandoned regulation of a charted MIT with a collection of data including gas composition, pressure and flow rates. Please contact Loron Ashcroft at (505) 333-3100 with any comments or concerns.
