Sampling Locations Selection Results
Baseline Groundwater Sampling Rule 609

JULY 11, 2013

Criteria: Groundwater samples will be collected from all Available Water Sources up to a maximum of four within a ½ mile radius of the proposed well.

Nininger 11-1-1645 – ½ Mile Radius Zone

There are no Available Water Sources located within one-half (1/2) mile of the proposed well location.

This proposed well site does not meet the criteria for baseline samples and subsequent monitoring under the requirements of Rule 609.
