Pratt 4H-29H-P168, Surface Location 677' FSL, 1171' FEL  
Section 29, T1N, R68W  
Weld County, Colorado

Dear Ms. Pratt:

Encana Oil & Gas (USA) Inc. ("Encana") staked the above mentioned wells at surface locations as indicated above from the north and east lines of Section 29, Township 1 North, Range 68 West (see attached Well Location Certificates). These wells are being drilled under the rules and regulations of the Colorado Oil and Gas Conservation Commission's ("COGCC") Rule 318A known as the Greater Wattenberg Area Special Well Location, Spacing and Unit Designation Rule. This rule states that all boundary infill wells be drilled from the same surface locations as previously designated in Rule 318A.c.(2) which reads:

"When the operator is requesting a surface well location greater than fifty (50) feet from a well (unless safety or mechanical considerations of the well to be twinned or topographical or surface constraints justify a location greater than fifty (50) feet), the operator shall provide a consent to the exception signed by the surface owner on which the well is proposed to be located in order for the Director to approve the well location administratively."

These wells were staked at locations between 286' and 306' south of the existing SRC Pratt 29TD well. As these locations were staked with your consent and approval, Encana respectfully requests your consent to an exception location for the above mentioned wells by waiver of the COGCC Rule 318A.c.(2).
