To Whom It May Concern:

Encana Oil & Gas (USA) Inc. ("Encana") staked the above mentioned wells at surface locations as indicated (see attached Well Location Certificate). This well is being drilled under the rules and regulations of the Colorado Oil and Gas Conservation Commission's (COGCC") Rule 318A(1), known as the Greater Wattenberg Area Special Well Location, Spacing and Unit Designation Rule (Except the City and County of Broomfield). Rule 318A(1).c.(2) states:

"When the operator is requesting a surface well location greater than fifty (50) feet from a well (unless safety or mechanical considerations of the well to be twinned or topographical or surface constraints justify a location greater than fifty (50) feet), the operator shall provide a consent to the exception signed by the surface owner on which the well is proposed to be located in order for the Director to approve the well location administratively."

The wells were staked at a location between 466' and 498' northeast of the existing SRC Pratt 24-29D well located in the same drilling window. As this location was staked with your consent and approval, Encana respectfully requests your consent to an exception location for the Waste Connections 3A-29H-M168, Waste Connections 3B-29H-M168, Waste Connections 3C-29H-M168, Waste Connections 3D-29H-M168, Waste Connections 3E-29H-M168, Waste Connections 3F-29H-M168, and Waste Connections 3G-29H-M168 wells by waiver of the COGCC Rule 318A(1).c.(1).

If this meets with your approval, please sign, date and return one original letter to the undersigned.

Thank you for your time and consideration in this matter. If you have any questions or comments, please contact the undersigned at (720) 369-0432.

Respectfully,

Encana Oil & Gas (USA) Inc.
