Steve,

The COGCC is reviewing the above-referenced Form 2A for the Holt 1 Well in Baca County. In order to complete our review process, we request that the following items be addressed:

1. The proposed well location is in the Southern High Plains Ground Water Management District and per Rule 100, is defined as a Sensitive Area. With your approval, I will mark the "yes" box for sensitive area on the Form 2A. Please note that because the planned location is in a Sensitive Wildlife Habitat Area and Sensitive Area, there should be a heightened awareness for compliance with COGCC rules including berm and containment area construction, site preparation and stabilization, and operating requirements in sensitive wildlife habitats.
2. The date planned to commence construction predates the end of the 7/22/2013 public comment period. Please provide a revised date and with your approval, I will enter it on the form.

Please respond in writing to this request. Feel free to call or email if you have questions/concerns.

John
