RE: Water Well Status
Permit Number 140579 – Southern Ute Indian Tribe (VOLUNTARY PROGRAM)
Baseline Domestic Water Well Sampling for the Waters 34-12-32-1H Well
La Plata County, Colorado

Dear Mr. Redweik:

A domestic water well (Colorado Department of Natural Resources Permit Number 140579) owned by the Southern Ute Indian Tribe was identified as a water source in the Swift Energy Operating, LLC (Swift) Voluntary Baseline Domestic Water Well Sampling and Monitoring Program in association with the Waters 34-12-32-1H well. LT Environmental, Inc. (LTE) obtained access to the property located in the southwest quarter of the southeast quarter of Section 31, Township 34 North, Range 12 West, La Plata County, Colorado to sample the water well. On August 6, 2013, LTE searched for and identified the water well at latitude 37°08'34.55149 North and longitude 108°11'26.08230 West. However, the well was locked and had no pump for operation. According to COGCC Rule 609 Subpart b.5, Swift is not required to sample water sources that are determined to be nonoperational or would require specialized sampling equipment (such as wells with no tap or pump). As a result, LTE did not sample this well. If you have any questions concerning this water well, please call LTE at 970-385-1096.

Sincerely,
LT ENVIRONMENTAL, INC.
