Acquisition of a Storm Water Discharge Permit• Consultation with the surface landowner or appointed agent• Finalize access routes• Finalize well pad location to minimize surface grade impacts• Finalize well pad layout to minimize disturbances• Develop wildlife management plan if protected species are present

3	General Housekeeping	<ul style="list-style-type: none"> • Drilling and production operations conducted in safe, workmanlike manner. Safety expectations include good housekeeping. • During drilling/completion operations, debris stored in caged container which is removed from the site. • During production operations, the lease is inspected daily by MDC personnel.
