Re: Operator Request Letter to Rule 318A.m.
Badding 13C-2HZ
Township 2N North, Range 66 West
Section 35: NW/4SW/4
Weld County, Colorado

Ladies/Gentlemen:

Kerr-McGee Oil & Gas Onshore LP (KMG) is making application for a drilling permit for the above captioned well. As currently planned, the wellbore(s) of the following well(s) will lie within 150 feet of the horizontal lateral of the captioned well:

1.	05-123-23456	VAWTER 13-2	Bayswater Exploration and Production LLC
2.	05-123- 31706	BROWN 5-2	Kerr-McGee Oil and Gas Onshore LP
3.	05-123-31676	BROWN 5-2S	Kerr-McGee Oil and Gas Onshore LP
4.	05-123-32039	BADDING 13-35	Kerr-McGee Oil and Gas Onshore LP
5.	05-123-32040	BADDING 12-35SX	Kerr-McGee Oil and Gas Onshore LP
6.	05-123-32064	BADDING 34-35	Kerr-McGee Oil and Gas Onshore LP
7.	05-123-31682	BROWN 4-2	Kerr-McGee Oil and Gas Onshore LP

Prior to drilling operations, Operator will perform an anti-collision review of existing offset wells that have the potential of being within close proximity of the proposed well. This anti-collision review may include MWD or gyro surveys and surface locations of the offset wells with included error of uncertainty per survey instrument, and compared against the proposed wellpath with its respective error of uncertainty. If current surveys do not exist for the offset wells, Operator may have gyro surveys conducted to verify bottomhole location. The proposed well will only be drilled if the anti-collision review results indicate that the risk of collision is sufficiently low as defined by the anti-collision plan, with separation factors greater than 1.5, or if the risk of collision has been mitigated through other means including shutting in wells, plugging wells, increased drilling fluid in the event of lost returns or as is appropriate for the specific situation. In the event of an increased risk of collision, that risk will be mitigated to prevent harm to people, the environment or property. For the proposed well, upon conclusion of

drilling operations, an as-constructed directional survey will be submitted to COGCC with the Form 5.

Rule 318A.m of the Colorado Oil and Gas Commission's Rules and Regulations does not allow horizontal wells to be drilled within 150' of other wells unless this requirement is waived by the Operator of the encroached upon well(s). Signed written waiver(s) of the encroached upon well(s) are attached to the APD.

KMG respectfully requests the Director to accept this Operator Request Letter to allow the above referenced well to be drilled within 150' of the well(s) listed above.

Very truly yours,

Kerr-McGee Oil & Gas Onshore LP

Re: BADDING 13C-2HZ
Township 2 North, Range 66 West, 6th P.M.
Section 35
Weld County, Colorado

Dear Sir/Madam:

Kerr-McGee Oil & Gas Onshore LP is applying for a permit to drill the captioned horizontal well. Pursuant to Rule 318A.m, the COGCC requires that operators proposing horizontal wells obtain waivers from operators of wells within 150 feet of the proposed horizontal wellbore.

As currently planned, the wellbores of the following well(s) which are operated by Bayswater E&P LLC lie within 150 feet of the horizontal lateral of the captioned well:

1) VAWTER 13-2 05-123-23456

If Bayswater E&P LLC is in agreement to waive Rule 318A.m., please sign in the space provided below and return one original copy to the undersigned.

KERR-MCGEE OIL & GAS ONSHORE LP
A wholly owned subsidiary of Anadarko Petroleum Corporation

Sincerely,

A handwritten signature in blue ink that reads 'Lauren Kucera'.

Lauren Kucera
Regulatory Analyst II

Enclosure: Survey plat

As operator of the above referenced well(s) lying within 150 feet of the wellbore of the above captioned well, Bayswater E&P LLC hereby waives the one hundred and fifty foot (150') minimum intrawell distance as specified in COGCC Rule 318A.m.

Accepted and agreed to this 30th day of August, 2013.

Bayswater E&P LLC.
