**Spill # 2232473**

**Form 27 Submittal**

Hi Bob,

Attached is a Form 19 and supporting documentation for the above referenced subject site. Historical soil and groundwater impacts were discovered when a dump line was being replaced. A Form 19 was submitted to the COGCC on March 25, 2013 and spill tracking number 2232473 was issued for the project. PDC plans to use bi-weekly vacuum enhanced fluid recovery and air sparging to address the subsurface impacts. PDC will conduct quarterly groundwater monitoring and will submit a Notice of Change/NFA request once the COGCC cleanup limits are achieved.

Thank out and please feel free to get a hold of me if you have any questions.
