Kyla,

The COGCC is reviewing the above-referenced Form 2A. In order to complete our review process, we request that you address the following items:

1. The location drawing attached to form has a 400' distance for visible improvements from the proposed Oil and Gas Location. As of August 1, 2013, Rule 303.b.(3) now specifies that all visible improvements within 500 feet are included. Please provide a location drawing with the 500' distance shown and I will attach it the Form 2A.
2. The well site is served by production facilities at another location. Please indicate whether pipelines will be used and if so provide a description which I will attach to the form.

Please respond in writing (e-mail) to this request. If you have any questions, please do not hesitate to contact me at [303-894-2100](tel:303-894-2100) extension 5168.

Best Regards

—

John Noto, P.G.

Good Morning, John,

I have requested the revised drawing from the surveyor. As soon as I receive it, I will send it your way and provide your answer to #2.

Thanks! Happy Monday!

Kyla

John,

Please see attached revised location drawing.

In regards to your #2 below...Yes, there will be pipelines leaving the North side of the 5-11 location, headed in a straight line due North until they meet the 4-11 location facility.

Larry,

I have attached for you the revised well location plat and topo plat.

If either of you need anything else, please give me a call or shoot me an email. Thank you so much for all your help!!

Happy Friday,

Kyla
