Re: Operator Request Letter to Rule 318A.m.  
WAGNER 13C-3HZ  
Township 1 North, Range 67 West  
Section 34  
Weld County, Colorado

Ladies/Gentlemen:

Kerr-McGee Oil & Gas Onshore LP (KMG) is making application for a drilling permit for the above captioned well.

As currently planned, the wellbore(s) of the following well(s) which are operated by Noble Energy Inc. will lie within 150 feet of the horizontal lateral of the captioned well:

- |    |                        |              |                          |
|----|------------------------|--------------|--------------------------|
| 1. | GRENEMYER WAGNER 12-34 | 05-123-21026 | Encana Oil and Gas (USA) |
| 2. | SELTZER 13-34          | 05-123-20325 | Encana Oil and Gas (USA) |

Prior to drilling operations, Operator will perform an anti-collision review of existing offset wells that have the potential of being within close proximity of the proposed well. This anti-collision review may include MWD or gyro surveys and surface locations of the offset wells with included error of uncertainty per survey instrument, and compared against the proposed wellpath with its respective error of uncertainty. If current surveys do not exist for the offset wells, Operator may have gyro surveys conducted to verify bottomhole location. The proposed well will only be drilled if the anti-collision review results indicate that the risk of collision is sufficiently low as defined by the anti-collision plan, with separation factors greater than 1.5, or if the risk of collision has been mitigated through other means including shutting in wells, plugging wells, increased drilling fluid in the event of lost returns or as is appropriate for the specific situation. In the event of an increased risk of collision, that risk will be mitigated to prevent harm to people, the environment or property. For the proposed well, upon conclusion of drilling operations, an as-constructed directional survey will be submitted to COGCC with the Form 5.

Rule 318A.m of the Colorado Oil and Gas Commission's Rules and Regulations does not allow horizontal wells to be drilled within 150' of other wells unless this requirement is waived by the Operator of the encroached upon well(s). KMG is the operator of the proposed well and two encroached upon well(s) so no waiver is required. Signed written waiver(s) of the encroached upon well(s) are attached to the APD.

As operator of the above referenced well(s) lying within 150 feet of the wellbore of the above captioned well, KMG respectfully requests the Director to accept this Operator Request Letter to allow the above referenced well to be drilled within 150' of the well(s) listed above that are operated by KMG.

Sincerely,

**Kerr-McGee Oil & Gas Onshore LP**

Dear Sir/Madam:

Kerr-McGee Oil & Gas Onshore LP is applying for a permit to drill the captioned horizontal well. Pursuant to Rule 318A.m, the COGCC requires that operators proposing horizontal wells obtain waivers from operators of wells within 150 feet of the proposed horizontal wellbore.

As currently planned, the wellbores of the following well(s) which are operated by Encana Oil & Gas lie within 150 feet of the horizontal lateral of the captioned well:

- |                          |              |
|--------------------------|--------------|
| 1) GREEMYER WAGNER 12-34 | 05-123-21026 |
| 2) SELTZER 13-34         | 05-123-20325 |

If Encana Oil & Gas is in agreement to waive Rule 318A.m., please sign in the space provided below and return one original copy to the undersigned.
