General Comments

User Group	Comment	Comment Date
Permit	Passes Permitting. Have requested Directional Survey covering 10,038' to 10,938' interval because survey points for this interval show up in directional data file but not on attached directional survey. [Operator must have this data because it shows up in Directional Data file.] Casing point matches 10,938' of Directional Data file. Have changed BHL location to be consistent with Directional Data file.	9/17/2013 8:37:07 AM
