To: "Fischer - DNR, Alex" <[alex.fischer@state.co.us](mailto:alex.fischer@state.co.us)>

Alex,

I just submitted the sundry notice updating the depth to groundwater – document # 400483614

The cement return pit was constructed on May 17, 2013.

Please let me know if you need any additional information.

Thank you,

*Karolina Blaney*

Alex,

The pit was constructed in early June. I will have a more accurate date tomorrow after our dirt contractor reviews his daily tickets. I will submit the sundry notice for the Form 2A correction tomorrow as well. Are these the only two items that you need in order to approve this Form 15 application?

Thank you so much for your help,

Karolina,

Two items:

1. Provide a Sundry for the 2A location (Location ID 431021) updating the depth to ground water from 39 feet to 100 feet.
2. What is the approximate date the pit was constructed?

Thanks

Alex

Alex,

I just submitted the Form 15 for the SG cement return / multi-well pit located at the SG cuttings trench location. The system wouldn't allow me to submit the Pit Report for an existing pit without the facility number so I marked it as "in planning".

Please let me know if there is any additional information that you need in order to approve this application. Once I have the facility number assigned, I will submit the pit closure workplan, Form 27.

Thank you so much for your help,
