Amber,

Please upload the attached Manifest, NFA letter and this email to

REM # 5681

Location ID # 391314

Pit Facility ID # 116525

API # 077 08743

Note: The original Form 27 uploaded to the database at the time of the incident doesn't have the second page (I could not open it). Would you please substitute the Form 27 in the database with the one attached to this email?

Thanks Amber...

Naomi,

Please find attached the No Further Action letter for the Remediation Project # 5681, concerning the release that occurred in 2010.

The project has been closed.

Thanks,

Carlos

Carlos

The attachment is not included – My apologies.

The dates are correct. Black Frac Tanks staged the Roll-off bins at their yard in Parachute while the payment issue was resolved. Payment was not made until Black Frac Tanks provided an accurate invoice that was immediately paid by Maralex.

Thanks

Craig

**Subject:** Manifest Maralex Roan Creek Evaporation Pond

Carlos – good afternoon

The Manifests and the Special Waste Characterization Form representing the contaminated soil originating from Roan Creek Evaporation Pond are attached. The trucking and disposal occurred on September 17 and 18, 2013. FYI – Two manifest are included and they indicate that two loads were delivered to the Landfill each day.

I believe this was final requirement regarding work at Roan Creek Evaporation Pond - Specific to the spill/release event involving the drainage swale and above ground storage tank and pad.

Please do not hesitate to contact me if you have questions or require additional information.

Thank You
