Dear Mrs. Azulai,

Colorado Oil and Gas Conservation Commission (COGCC) staff has received the manifest for the impacted material sent to the South Canyon Landfill. Based on the review of data presented, it appears that no further action is necessary at this time at this site. However, should future conditions at the site be discovered of contaminant concentrations in soils exceeding COGCC standards or if groundwater is found to be significantly impacted, COGCC may require that further investigation and/or remediation be conducted.

The remediation project # 5681 has been closed. If you require any additional information, please call me at (970) 625-2497.

Sincerely,

Carlos Luján, Ph.D.
