Hi Rob,

I saw your email that you sent me on Friday regarding this location. I found the email I sent below so I am just forwarding on. Let me know if this doesn't answer any of your questions or if you need anything else.

Thanks!

Erin Hochstetler

Hi Rob,

The existing equipment will be removed while the new facilities location is being built. The same equipment will be installed again once construction is finished but moved over to where the new facilities equipment will be. So they are being combined into one location. That's why I was going to amend the existing location ID number. But, if the existing well defines the other location then I am fine with considering this a new location.

Let me know if you have any more questions, thanks!

Hi Erin,

The Access Road Map indicates that the existing facilities will be removed. The Form (on the list of facilities) indicates that it consists of proposed and existing equipment. Can you clarify what will be happening here?

The existing Machi Ross well defines the location, I think it would be appropriate to consider this a new location.

Let me know what you think, thanks,

-
