Dear Mr. Radin,

Colorado Oil and Gas Conservation Commission (COGCC) staff has received the No Further Action request via Form 04 submitted on October 11, 2013 for the referenced site. Based on the review of data presented, it appears that no further action is necessary at this time at this site. However, should future conditions at the site be discovered of contaminant concentrations in soils exceeding COGCC standards or if groundwater is found to be significantly impacted, COGCC may require that further investigation and/or remediation be conducted.

The status of pit facility ID #s 434405 (Pit 1) and 434408 (Pit 2) have been changed from Active (AC) to Closed (CL). If you require any additional information, please send me an email or call me at (970) 625-2497.

Sincerely,

Carlos Luján, Ph.D.  
Environmental Protection Specialist
