WATER RESOURCES

Is this a sensitive area: ☐ No ☒ Yes

Distance to nearest

downgradient surface water feature: 550 Feet

water well: 1247 Feet

Estimated depth to ground water at Oil and Gas Location 23 Feet

Basis for depth to groundwater and sensitive area determination:

The nearest water well to location is a monitoring well. Static water level was determined from the nearest water well to location with applicable data: Permit # 690-WCB-, located NWSW Sec 23-T6N-R67W. This well pumped at a rate of 1000 gph with a static water level of 21'. There is no elevation listed for this well, but topographic maps show it as approximately 2' below location. Correcting for this difference results in an estimate of 23' to groundwater at location.
