**Subject:** Request for sidetrack approval

Ms. Burn,

I'm emailing to request approval for a sidetrack. We just spoke on the phone and you gave me verbal approval to proceed with our plans to set a plug and redrill the curve.

The details are as follows:

Rig: HP 308

Well: Gittlein 4C-28HZ

API: 512336383

- i. We landed 30ft below the base of the Codell which was the target formation.

- ii. Total MD in the original 8.75" hole was 7598ft.
- iii. 9 5/8" 36# J55 casing was set at 1307ft.
- iv. There is no fish in the hole.
- v. Proposed plug is going to be set from 6440ft-7040MD.
- vi. 17.5# cement, 0.94 yield, 5% excess, 280sx.
- vii. KOP is planned for 6643ft.
- viii. Proposed formation for sidetrack is the Codell – the originally planned target zone.
- ix. Same BHL planned.

Thank you for your time and consideration on this well.

Reid Davidson

Drilling Engineer
