Pit closure (See attached list)  
Rio Blanco County

Dear Mr. Radin,

Colorado Oil and Gas Conservation Commission (COGCC) staff has received the Notice of Completion via Form 27 Remediation Work Plan submitted in October 2013 for the referenced sites (see attached list). Based on the review of data presented, it appears that no further action is necessary at this time at these sites. However, should future conditions at the site be discovered of contaminant concentrations in soils exceeding COGCC standards or if groundwater is found to be significantly impacted, COGCC may require that further investigation and/or remediation be conducted.

The remediation projects in the attached list have been closed. The status of the pit facility ID #s has been changed from Active (AC) to Closed (CL). If you require any additional information, please send me an email or call me at (970) 625-2497.

Sincerely,

Carlos Luján, Ph.D.  
Environmental Protection Specialist

Cc: Alex Fischer – COGCC Environmental Supervisor
