<u>No</u>		<u>BMP/COA Type</u>	<u>Description</u>

Operator Comments:

The surface location is being moved 90' West to reduce the distance between wellheads to be able to drill all 10 wells on the pad continuously with skidding the rig. The landing point and bottom hole locations will remain the same. Therefore, there will be no change in offset wells, casing or cementing programs.

I hereby certify all statements made in this form are, to the best of my knowledge, true, correct, and complete.
