Amber,

Please enter and close the attached Form 19. Upload this email as well.

Link the form 19 and the email to:

Location ID # 335897

API # 103 11084

Please include the standard NFA comment when closing the spill report with Form 19A.

And at last, please copy Jessica and myself with the doc # for our records.

Thanks,

Carlos

Subject: PCU 197-34B 8/15/2013 Chemical Spill Form 19

Hi Chris,

Attached for your review is the Form 19 and associated documents for the PCU 197-34B chemical spill on 8/15/2013. The impacted soil was removed and a confirmation sample was collected below the excavation. The sub-excavation sample passed table 910-1 with the exception of pH and Arsenic.

The excavation will be back filled with clean onsite material. We are requesting NFA for this spill.

Please touch base with any comments or questions and thanks for your assistance.

Jes
