RE: Surface Owner Consent for Temporary Surface Use
Township 1 North, Range 65 West, of the 6th P.M.
Section 31: Part of the SENW
Weld County, Colorado

Dear Mr. Stamey:

Encana Oil & Gas (USA) Inc. ("Encana") is currently conducting oil and gas operations in the area of your above described property. In connection with these operations, the rules and policies of the Colorado Oil and Gas Conservation Commission ("COGCC") require that Encana re-enter and re-plug and abandon the Lutz 1A Well, which is located on your property. Encana requests your consent to temporarily use the surface of your property to access the Lutz 1A Well and perform this work.

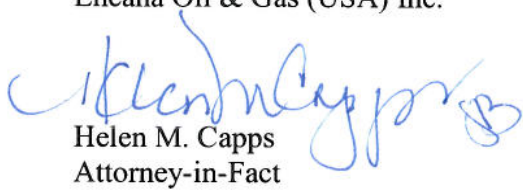

Encana's surface use shall be temporary and Encana estimates that the re-plugging and abandonment work will take approximately 10 days after commencement, subject to delays due to weather or other conditions outside Encana's control. Encana will perform the work only during daylight hours. After completion of the work, Encana will restore the surface of your property to substantially the same condition that existed prior to the work.

As consideration for your agreement to grant Encana this temporary surface use, Encana offers to pay you \$1000. Encana will pay this amount following Encana's receipt of a fully executed copy of this letter from you. This payment shall be full compensation for the temporary surface use and for normal and reasonably anticipated damages associated with the re-plugging and abandonment work. If you do not have a current W-9 on file with Encana, then Encana will also need a completed and signed W-9 before any payments can be processed. Please have these documents reviewed by your attorney.

If this offer is acceptable, please confirm your agreement and consent by signing below and returning the signed letter to Encana. Should you have any questions or concerns, please contact Salome Bekkedahl at 720-876-5186 or salome.bekkedahl@encana.com.
