Cynthia,

I have reviewed the referenced Form 2A Oil & Gas Location Assessment and have the following comment.

In the Construction section you have indicated that the estimated date interim reclamation will begin is 5/28/14. This is six months after the date planned to commence construction (11/28/13). Because the land use for this oil and gas location is Crop Land (CRP), interim reclamation must begin within three months of construction operations per COGCC Rule 1003.b.

Please provide me with a revised estimated date that interim reclamation will begin and I will change it on the Form 2A.

Please reply to this email by December 20, 2013. If you have any questions, please feel free to contact me. Thank you.
