COMMENTS:

Encana requests the approval of a temporary water storage facilities location that would place three 150' diameter water storage tanks next to the existing 5 acre well site location and add 4 acres for a total of 9 acres of total surface disturbance. The location (ID #331933) is on cropland.

The surface owner has already given their approval for this site through the signed Surface Use Agreement that was submitted with the permit. Attached to this sundry is the drawing from the SUA depicting the temporary completions area that the surface owner agreed to. All three water tanks will be placed within that area.

Encana will be using a third party contact to get water. The water will be piped to the location either from a local ditch or a hydrant. Encana will agree to the following as conditions of approval for this temporary water storage location:

1. Large volume temporary storage tanks will not be placed on fill material.
2. Only fresh water is permitted to be stored in large volume temporary storage tanks; flowback or produced fluids shall not be placed in large volume temporary storage tanks.
3. Any tanks containing flowback and/or produced fluids shall be placed on a sufficiently impervious area of the pad with adequate secondary containment.

Estimated location construction would begin November 1st, 2013 and the tanks would be removed immediately after the frac operations are completed.

H2S REPORTING

Data Fields in this section are intended to document Sample and Location Data associated with the collection of a Gas Sample that is submitted for Laboratory Analysis.

Gas Analysis Report must be attached.

H2S Concentration: _____ in ppm (parts per million) Date of Measurement or Sample Collection _____

Description of Sample Point:

Absolute Open Flow Potential _____ in CFPD (cubic feet per day)

Description of Release Potential and Duration (If flow is not open to the atmosphere, identify the duration in which the container or pipeline would likely be opened for servicing operations.):

Distance to nearest occupied residence, school, church, park, school bus stop, place of business, or other areas where the public could reasonably be expected to frequent: _____

Distance to nearest Federal, State, County, or municipal road or highway owned and principally maintained for public use: _____
