Mr. Warner,

The Colorado Oil & Gas Conservation Commission (COGCC) is issuing the attached Notice of Alleged Violation (NOAV) for rule violations at the facility and for noncompliance regarding the skim pit closure at the Warnecke #1. Specific rule violations and noncompliance issues are detailed on the attached NOAV and inspection documents. Required corrective actions are also on the attached NOAV.

Rule violations and corrective actions with specific deadlines were documented in a 9/11/13 inspection (document #664001245). A 11/6/13 follow up inspection, (document # 670600030) revealed that most of those corrective actions were not completed. COGCC also asserts that the skim pit was not properly closed in accordance with Rule 905, and that Magpie failed to comply with the conditions of approval (COAs) on the Site Investigation and Remediation Workplan, Form 27, (document # 2332511, Remediation Project # 7677).

Please note, the complete text of the NOAV would not fit in the space provided on the form and a separate attachment with the full text is included. I have also attached a copy of the 8/29/12, 9/11/13 and 11/6/13 inspection documents (#663300499, #663300499 and #670600030) the Form 27 (document # 2332511) and email correspondence for conditional approval of the Form 27 (document # 2232511).

Please call me if you have question regarding the alleged violations or required corrective actions.

Thank you,

—

John Noto, P.G.
