Dear Director:

Great Western Operating Company, LLC is planning to drill the above mentioned well to the Niobrara and Codell formations.

The surface location of Great Western's proposed wells has been staked outside of the 318A.a drilling window. The location is being permitted as an exception location. This location is a good location to both reduce the impact on the surface owner and to increase the number of wells reachable from one well pad to minimize surface disturbance. Please find the attached signed location 318A.a waiver.

Great Western Operating Company, LLC respectfully request that the COGCC review the enclosed information and approve the requested exception location waiver and Application for Permit to Drill the above captioned wells.

Respectfully,
