Kern 43-33 Pit, NESE 33 12N 62W, API #05-123-10268, Pit Facility #117951, Remediation Project #7391

James,

I see that soils at the Kern are a separate land treatment project from the Terrance projects (that *were* co-mingled, now that I have reviewed those).

The same conditions of approval still apply; I just wanted to clarify that we understand that there are two separate land treatment sites for the three facilities, not one.

Pardon my confusion.

Thanks,

Annie Clements Eckman, P.G.
