Arthur

Conducted onsite with Arens'.

Had to collect samples at kitchen sink per owner request so ice did not build up in barn and near tack room. Well in normal use daily.

Observed water to have no odor, no tint, no sediment, no bubbles or effervescence. NO METHANE IN WELL WATER SAMPLE.

Delivered sample to Green Anal. Lab for COGCC pkg. BTEX ordered, NO TPH-DRO or DRO since no odor or residue observed.

Methane .1.0 mg/l so NO ISOTOPE. Running BARTS IRB ANS SRB FOR 13 DAYS. Sample at San Juan Basin health for coli-lert test.

Will send FCGEO report when bacteria is received.

You will receive GAL chems and BTEX directly from that lab.
