Dear Ms. Dooling,

Colorado Oil and Gas Conservation Commission (COGCC) staff has received the Notice of Completion and No Further Action Request submitted via e-Form 04 on December 26, 2013 for the referenced site. Based on the review of data presented, it appears that no further action is necessary at this time at this site. However, should future conditions at the site be discovered of contaminant concentrations in soils exceeding COGCC standards or if groundwater is found to be significantly impacted, COGCC may require that further investigation and/or remediation be conducted.

The Non-Facility Identification #435582, under remediation project #7997 is closed now. If you require any additional information, please call me at (970) 625-2497, ext 6 or contact me by email at [carlos.lujan@state.co.us](mailto:carlos.lujan@state.co.us).

Sincerely,

Carlos Lujan, Ph.D.  
Environmental Protection Specialist  
NW Region
